Per Pupil Expenditures

The Department of Education (DOE) calculates per pupil expenditures using data provided in the end of year pupil and financial reports prepared by each school system. Needham Public Schools are in the middle of the range of comparable communities offering high quality education programs. Our spending is above the state average, but below many of our neighboring counterparts. Thus, we offer high value per dollar expended.

(1) Source: Massachusetts Department of Education. These figures represent "total integrated education costs" divided by "net average membership, as a measure of "the average cost of education for all children residing in a community, regardless of the district where they attend." Total integrated expenditures include school operating, grant and revolving fund expenditures; all related educational costs incurred by Town Departments (such as benefit and administrative overhead), tuition paid to other schools, and the Minuteman assessment. Net average membership is the sum of pupils in local schools, other public school districts and in special needs day and residential programs.

(2) Source: Massachusetts Department of Education. The integrated Cost Per Pupil calculation is discontinued for FY02 and beyond. Beginning in FY02, Per Pupil Expenditures exclude children being educated outside of the district. Similarly, tuition, regional district spending, and other payments for out-of-district pupils no longer are factored into the per pupil spending statistic.

Massachusetts Comprehensive Assessment System (MCAS) Test Score Summary:

The purpose of the MCAS tests is to increase student achievement and improve instructional practice across all grades. All fourth, eighth, and tenth grade students are required to take these tests under the 1993 Education Reform Law. The tests are based on newly established learning standards for all public schools in the Commonwealth of Massachusetts. The tests were administered for the first time in 1998.

MCAS - Language Arts:
